HOW TO DETERMINE YOUR RING SIZE

CONFIRM PRINTED PAPER SIZE

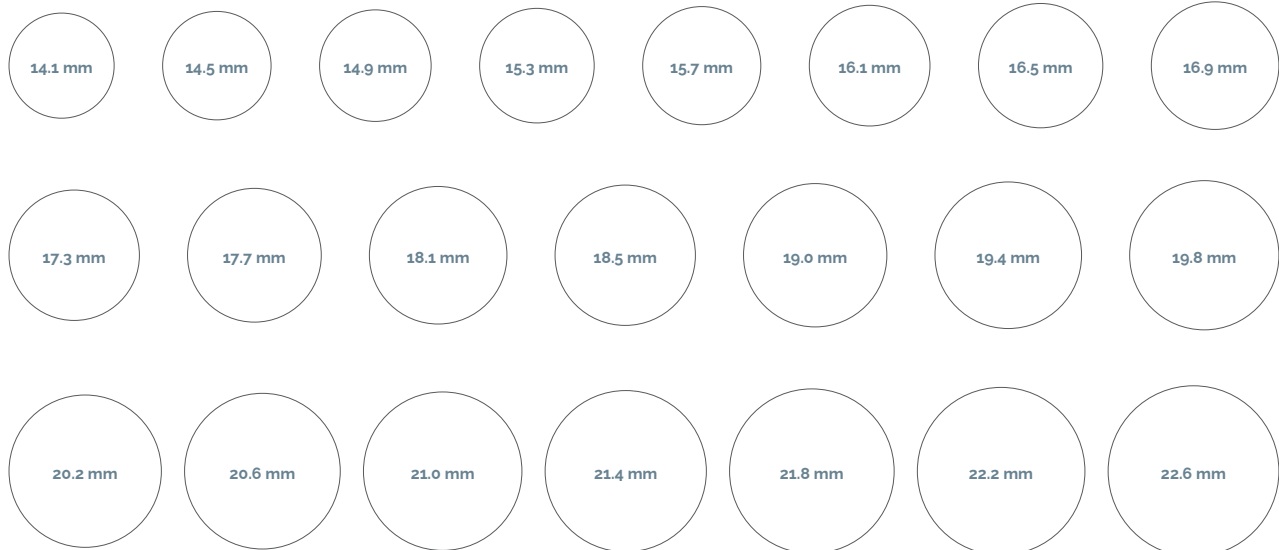

1. Ring measurements are very precise. Carefully follow these instructions to obtain an accurate measurement.
2. Prior to printing, ensure that Page Scaling is set to "None" on your print dialog box and print at 100% (To open the print dialog box, press CTRL+P.)
3. Measure the bar on the right. It must be exactly 30 mm long.

MEASURE CURRENT RING

1. Select a ring that properly fits the intended finger. Engagement and wedding rings are traditionally worn on the ring finger on the left hand.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the inside diameter of the ring.
3. If the ring falls between two sizes, order the larger size.

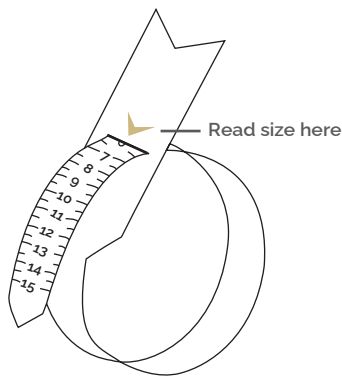

Measurements match the inside edge of the ring

MEASURE FINGER USING PAPER SIZER

1. Cut the above ring sizer along the outer line and create small opening where it says 'SLIT HERE'.
2. Encircle the ruler at the bottom of the finger with readings facing towards front side and readable by you.
3. Insert the pointer of the sizer through the opening.
4. Identify the larger part of the finger, this is normally the portion of knuckle, make sure that sizer moves through it.
5. With minor adjustments of sizer, complete the circle to place comfortably.
6. The reading that coincides with the opening indicates the accurate ring size of your finger.

In this example
the ring size is **11**

In this example
the ring size is **12½**

Your ring should fit your finger comfortably; snug enough so that it will not fall off, but loose enough to slide over your knuckle.

Finger size changes depending on the time of day and the weather. For best results measure your finger size:

1. At the end of the day and when your fingers are warm (Fingers are smaller in the early morning and when cold.)
2. Measure finger size 3 to 4 times to eliminate an erroneous reading.

INTERNATIONAL SIZE CONVERSION

Determine your ring size according to your country's standard. Use the International Ring Size Chart listed on the next page to convert to the corresponding ring size to place your order.

INTERNATIONAL RING SIZE CHART

Circumference (mm)	Diameter (mm)	Europe	UK & Australia	United States & Canada	China	Singapore & Japan	Hong Kong	Switzerland
